**Integrated Aquatic
Vegetation Management Plan
(IAVMP)**

Black Lake- Olympia, WA

Issued by: Black Lake Special District (BLSD)

RFP Issuance Date: October 27, 2025

Questions Due: November 10, 2025

Proposals Due: 4:00 PM PST, November 26, 2025

Submit to: info@blacklakespecialdistrict.org

Project Overview

The Black Lake Special District (BLSD) seeks a qualified contractor/consultant to develop an Integrated Aquatic Vegetation Management Plan (IAVMP) for Black Lake in Thurston County, Washington. The plan will address increasing aquatic plant growth affecting water quality, recreation, and habitat, and will serve as a long-term guide for sustainable lake management consistent with the Washington State Department of Ecology's Citizen's Guide for Developing IAVMPs.

Scope of Work

The selected consultant will:

- Conduct a lake-wide aquatic plant and bathymetric survey during summer 2026.
- Assist BLSD with a Department of Ecology grant application for plan funding.
- Provide technical review and support for the 2026 herbicide application.
- Develop the full IAVMP, including survey results, control

method evaluation, and a public involvement process.

- Offer on-call technical assistance for plan implementation and contractor oversight.

Contract & Budget

Duration: January 15 -- December 31, 2026 (extensions possible)

Budget: Not to exceed \$100,000

Compensation: Negotiated labor/material rates by task

Insurance: General, auto, professional, and worker's compensation coverage required.

Request For Proposal

Prospective contractors/consultants will be required to acknowledge receipt of the ten-page 'Request For Proposal (RFP) Black Lake Special District (BLSD), dated 10/27/2025.' This document is available via download from the BLSD website (blacklakespecialdistrict.org) or by requesting a PDF copy from (info@blacklakespecialdistrict.org).
